About Me

With over 4 years of experience, I specialize in building scalable, high-performance web applications. Proficient in both front-end and back-end development, I leverage technologies like **React.js**, **Next.js**, **Node.js**, and **TypeScript** to create dynamic user interfaces and robust server-side solutions. My expertise includes state management with **Redux** and **Zustand**, working with databases like **MongoDB** and **PostgreSQL**, and optimizing performance with tools such as **Webpack** and **Docker**. I am passionate about writing clean code and delivering efficient, maintainable solutions.
