PROFESSIONAL SUMMARY

Full-stack engineer with **5+ years** building and deploying production applications end to end. Back end: **Axum, NestJS, Node.js, REST and WebSocket APIs, MongoDB, SQLite, RabbitMQ**. Front end: **React, Vite, Nuxt, TypeScript, Tailwind CSS**, with a strong focus on **design systems** and **right-to-left (RTL)** products. Infrastructure: **Docker** and **Linux** servers. Also hands-on with **Rust**, networking and systems debugging.

TECHNICAL SKILLS

LANGUAGES Rust, TypeScript, JavaScript, Python, Shell

FRONTEND React, Vite, Nuxt, Vue, Tailwind CSS

BACKEND Axum, NestJS, Node.js, REST, WebSocket

DATABASES MongoDB, SQLite, RabbitMQ

TOOLS Docker, Git, VS Code API, Linux

EDUCATION BSc Software Engineering

LANGUAGES SPOKEN English, Persian

PROFESSIONAL EXPERIENCE

Amen Security

2024 — Present · 19 mos

FRONTEND ENGINEER · REMOTE

- Built a reusable React component library and design system used across the product suite.
- Shipped RTL and dark-mode features with full keyboard and screen-reader support.
- Improved build time and interaction responsiveness across the core dashboard.
- Worked directly with backend and design teams on feature specs and reviews.

Freelance / Independent

2021 — 2024

WEB DEVELOPER

- Delivered responsive websites and web apps for small businesses and startups.
- Handled everything from requirements and UI design to deployment and maintenance.

Tose'e Atiara

2023 — 2024

FRONT-END DEVELOPER

- Developed production React interfaces for large-scale e-commerce applications and integrated them with REST APIs.
- Built reusable components and front-end workflows, and improved page performance and user experience.

Insanity Studio

2022 — 2023

FRONT-END DEVELOPER

- Built reusable React components and production interfaces for client projects, integrated with backend APIs.
- Applied state management and front-end architecture to keep code maintainable; delivered pixel-perfect designs in code review.

PROJECTS

NebulaGrid

2026

Infrastructure control plane — a Rust/Axum gateway and React dashboard for servers, containers, VMs, Kubernetes, storage, backups, policies and certificates, with JWT auth, RBAC, a REST API and a WebSocket hub.

RUST · AXUM · REACT · DOCKER

iot-xray-system

2025

IoT X-Ray data platform on NestJS with RabbitMQ message queuing and MongoDB — real-time ingestion, a full CRUD REST API, built-in device simulation, Swagger docs and Docker deployment.

NESTJS · RABBITMQ · MONGODB · DOCKER
