

Mohammad Pouya Ghourchiani

Full-Stack Web Developer

 Tehran |  PouyaGH2080@gmail.com |  [+98 939 679 8407](tel:+989396798407)
 GitHub: github.com/BTF-Kabir-2020

Profile Summary

Full-Stack Developer with **5+ years of experience** building scalable **web applications, backend services, and system tooling** using **React, Next.js, Node.js, NestJS, Rust, and Go**. Experienced in **backend architecture, APIs, databases, DevOps workflows, and infrastructure automation**. Passionate about building **reliable, high-performance solutions** for real-world business needs.

Tech Stack

Languages & Frameworks:

TypeScript, JavaScript (ES6+), React.js, Next.js, Node.js, NestJS, Express.js, Vue.js, Nuxt.js, Angular, Go, Rust

Frontend & UI:

React Query, Redux Toolkit, Zustand, Context API, Pinia, Tailwind CSS, Bootstrap, styled-components, Ant Design, Material UI

Backend & Data:

REST APIs, GraphQL, WebSocket, MongoDB, PostgreSQL, MySQL, SQLite, Redis, Prisma, TypeORM, GORM

DevOps & Tools:

Docker, Kubernetes, Nginx, Linux, CI/CD, Git, GitHub, GitLab, VSCode, Jira, Husky, deployment automation, monitoring, server provisioning

Engineering:

Scalable architecture, performance optimization, Rust CLI tools, networking projects, infrastructure automation, security-focused development

Professional Experience

◆ Freelance Full-Stack Developer

2016 – Present (Remote & Contract-based)

- Developed full-stack applications using **TypeScript, React.js, Next.js, Node.js**, and **NestJS** for business needs.
-
- Built **RESTful APIs**, integrated **MongoDB** and **PostgreSQL**, and created backend services.
-
- Delivered e-commerce platforms, dashboards, automation tools, and **Rust-based CLI, networking, and system tools**.
-
- Managed codebases, deployments, and workflows using **Git, CI/CD practices**, and modern tools.

◆ Full-Stack Developer – Amens Co.

2024 – 2026 (19 Months)

- Developed full-stack security solutions and e-commerce platforms using **Next.js, NestJS, PostgreSQL**, and TypeORM.
- Built **product management**, inventory workflows, **RBAC**, secure checkout flows, and **REST API** integrations.
- Implemented responsive UI with **Tailwind CSS**, optimized **SEO**, improved performance, and delivered production-ready features.
- Managed **deployment workflows**, server configuration, database operations, and system reliability using **DevOps practices**.

◆ Front-End Developer – Tose'e Atiara (E-commerce Dev Co.)

2023 – 2024 (Tehran)

- Integrated **RESTful APIs** and optimized performance for seamless shopping experiences
- Worked closely with **back-end developers** and designers in agile sprints

◆ Front-End Developer – Insanity Studio

2022 – 2023 (Tehran)

- Designed reusable UI components with React.js and advanced state management
 - Contributed to scalable frontend architecture for client-based projects
 - Participated in code reviews and delivered pixel-perfect designs
-

🎓 Education

Bachelor's in Software Engineering

Islamic Azad University – Tehran, Iran

🏆 Achievements

- Delivered **20+ freelance web projects** across e-commerce, dashboards, automation tools, and business applications.
 - Improved **performance, SEO, and user experience** across multiple React and Next.js applications.
 - Built and contributed to **open-source projects, Rust/Go tooling, and developer-focused solutions.**
 - Recognized for **clean code practices, proactive communication, and reliable delivery.**
-

🎮 Interests

- Exploring **modern web technologies, backend systems, and developer tools.**
- Building **side projects** in Rust, Go, networking, and automation.
- Contributing to **open-source communities** and sharing technical knowledge.
